

ROHATSU

DECEMBER 7, 2017
7 pm—Midnight

Rohatsu is the traditional commemoration of the historical Buddha's enlightenment. When he looked up at the morning star, the Buddha received that brightness with the same eyes of zazen that enable us to realize perfect enlightenment.

From within this state of mind the Buddha said: *"How wondrous, how wondrous! All beings are endowed with this pure nature! What a wondrous, astonishing thing has been realized! All the ten thousand things, all the flowers, all the trees, all the rocks, all things everywhere are shining brilliantly! What an amazing thing! It's the same landscape, but how brilliantly it is illuminated!"*

Join us at Soji Zen Center for a time of gratitude and deep practice. In honor of the annual Bodhi Day, we will commemorate the Buddha's awakening with a special evening of zazen starting at 7 pm until shortly after midnight.

We invite you to join us for the whole evening or a part of it as your schedule allows. Please confirm your attendance with [Shoki](#) or call (215) 242-1750.
